Important note:

The regulations of the ADR for the monitoring of vehicles subject to mandatory marking, labelling and placarding apply in Germany, which are made more stringent by the national Ordinance on the Transport of Dangerous Goods by Road, Rail and Inland Waterways (GGVSEB). All vehicle drivers transporting dangerous goods on behalf of Ambrian Energy GmbH must be in possession of a corresponding certificate. This document gives you the opportunity to extend your certificate or, if necessary, to apply for a new certificate.
